Industrial Mixers & Agitators

Dynamix Agitators engineers and manufactures industrial mixers for chemical markets worldwide. Dynamix Agitators incorporates over 40 years of industrial mixing experience into its industrial mixer models and chemical mixer solutions. Our chemical mixer and agitators are configured to suit your needs.

We strive to understand your product and process needs so that we can custom engineer a chemical mixer accordingly. Our understanding of your chemical product & industrial process ensures that your mixer will become part of a solution and a core capability in your industrial process. This relationship with our industrial clients allows us to extend our unique solution assurance on many of our products.

Why Choose Dynamix?

ENGINEERING - We go the extra mile to understand your mixing challenges, process and specific requirements. This focus is the basis of our relationship with you and also the source of innovation in our products.

QUALITY - We take great pride in the quality of our designs and our manufacturing to ensure exceptional product quality.

PRICE - We maintain competitive pricing through a keen eye on the market and a continuous improvement program for our manufacturing and procurement departments.

SERVICE - This is where we really shine at Dynamix. Time is money and responsiveness and reliability are paramount to building a successful business partnership.

VALUE - Through the combination of our Quality, Service and Price, Dynamix offers Value not equaled in today's market.
